Nkarta to Participate in Evercore Healthcare Conference

November 24, 2026

SOUTH SAN FRANCISCO, Calif., Nov. 24, 2026 (GLOBE NEWSWIRE) -- Nkarta, Inc. (Nasdaq: NKTX), a clinical-stage biotechnology company developing engineered natural killer (NK) cell therapies to treat autoimmune diseases, today announced its participation next week in the 9th Annual Evercore Healthcare Conference.

December 2, 2026
9th Annual Evercore Healthcare Conference
Miami, FL
8:20 a.m. ET – fireside chat

A simultaneous webcast of the event will be available on the Investors section of Nkarta's website, www.nkartatx.com, and a replay will be archived on the website for approximately 90 days.

About Nkarta
Nkarta is a clinical-stage biotechnology company advancing the development of allogeneic, off-the-shelf natural killer (NK) cell therapies for people living with autoimmune diseases. By harnessing the power of the innate immune system to eliminate pathogenic B cells driving the autoimmune response, Nkarta is advancing novel cell therapies engineered for deep therapeutic impact. The on-demand availability and outpatient dosing of our CAR NK cells enable a broad population of patients with different autoimmune conditions to conveniently access NK cell therapy in community health settings. For more information, please visit the company's website at www.nkartatx.com.
